OUR CANDIDATES.

The Allegheny County Convention which assembled on Tuesday last was composed of thoughtful, loyal men. The resolutions expressing the political creed of the party are toned in the true spirit of patriotism and forbearance. Every patriotic citizen of the county cannot fail endorsing them. The candidates nominated are men of sterling worth and integrity, eminently deserving of the suffrage of the loyal masses. We have placed the ticket at the head of our second page, and a brief review of the social and political record of the individual candidates will not be out of place.

For the office of Sheriff, a very important one, SAMUEL B. CLULEY has been nominated. He was born in Philadelphia in 1826, but at a very early age came to this city and made it his home. He learned the carpenter trade, which he successfully followed for a number of years. Possessing a naturally gifted mind, he abandoned the trade and became one of the reportorial corps of the Pittsburgh *Dispatch*. His connection with that journal was of the most pleasing and satisfactory nature, and the warm manner in which our neighbor advocated his nomination may be attributed to old associations. In 1857 he was chosen by Sheriff RODY PATTERSON as his Deputy, which position he held up to the close of that official's term of office. Sheriff PATTERSON was succeeded in office by JAMES L. GRAHAM, who reappointed Mr. CLULEY as Deputy. In 1860, Sheriff GRAHAM was succeeded in office by the lamented HARRY WOODS, who, upon assuming his duties, retained Mr. CLULEY as Deputy. In August, 1863, Sheriff Woods was summoned to eternity, and the community strongly urged upon Governor CURTIN the appointment of Mr. CLULEY to fill the vacancy thus occasioned. He consented to accept the office for the unexpired term, three months, and permitted the widow of his predecessor to draw the emoluments accruing from the office. At the expiration of his brief term, the present incumbent, JOHN H. STEWART, Esq., was chosen by the people his successor. Upon entrance to office he acknowledged the ability of Mr. CLULEY by conferring upon him the office of Deputy Sheriff, which position he has honorably and faithfully filled up to the present time.

Mr. CLULEY is a pleasant, affable gentleman, a firm advocate of human liberty, and a faithful, trustworthy member of the Union Republican party. He is immensely popular with the voters of the county, and no better man could have been selected to lead the ticket. The public interest demands that he be elected to an office in which he has had such ripe experience.

For Clerk of the Courts, also an important office, the Convention wisely conferred the nomination upon an empty-sleeve patriot, JOHN G. BROWN, Hampton township, late of Company H 102d Pa. Volunteers. Mr. B. was a brave and gallant soldier, and received the wound which renders him incapable of performing manual labor at the Battle of Seven Pines. He is a gentleman of good business qualifications and scholastic attainments. He won for himself an enviable reputation as a clerk in Provost Marshal FOSTER'S office of this district. He is a plain, unassuming gentleman, and numbers a host of friends. His nomination conclusively proves that the patriotic masses are willing to recognize the claims of a wounded soldier upon their gratitude, and to acknowledge in a substantial manner the services rendered our flag in the hour of trial.

Upon ALEXANDER HILANDS was conferred the nomination of Clerk of the Orphans' Court. Mr. H. is a thorough gentleman, and in every respect worthy of the nomination. It was given him as a recognition of his unfaltering devotion to the principles of the party. If elected he will make an attentive and efficient officer. There is not a more popular man upon the ticket than Mr. HILANDS, and he will poll a very heavy vote.

HENRY SNIVELY is the candidate for Recorder. He is a gentleman thoroughly experienced in business matters, and no wiser selection could have been made. At present he is employed as chief clerk in the County Controller's office. He is a true patriot, and has ever been a working member of the party which places him in the field as a candidate.

JOSEPH H. GRAY, of Plum township, late private in the 105th Pennsylvania Volunteers, has been nominated for Register. This brave gentleman enlisted in 1861, and served with honor and distinction until wounded at the battle of Fair Oaks, in 1862. He was shot in the leg and rendered a cripple for life. Mr. GRAY is a gentleman, endowed with superior business talent and is a ripe scholar. He will make an energetic and capable officer.

For Commissioner GEORGE HAMILTON, has been nominated. We feel that Mr. HAMILTON is too well known throughout the county to need any word of commendation from us. He is a firm, unflinching Republican, and worthy of the suffrage of every loyal voter.

JOHN F. DRAVO, Mifflin township, has been nominated for Director of the Poor. The Convention, in selecting Mr. DRAVO for this office, took into consideration his goodness of heart and humane, Christian character. If elected, the charitable community may rest assured that the duties of the office will not be neglected. He is a staunch, reliable Union Republican.

Perhaps the most important object to the people is to secure intelligent and trustworthy representatives in the Assembly. They should be experienced, shrewd men, men who fear not doing their duty and whose integrity is unimpeachable. Such have been placed in nomination, and we doubt whether better citizens could be found in the county. Messrs. GEORGE WILSON, of Pitt township; GEORGE Y. MCKEE, North Fayette township; WILLIAM PETER, Ross township; R. A. COLVILLE, city; SAMUEL CHADWICK, Collins township, and JOHN P. GLASS, city, are the candidates. Col. JOHN P. GLASS has already served three consecutive terms in the House of Representatives, and being nominated for the fourth, speaks volumes in his favor. He is abundantly qualified to represent our interests, while his integrity and honesty of purpose is above suspicion. He is a great favorite with his constituents and will poll a heavy vote. His political record is clear and unblemished.

The name of Hon. GEORGE WILSON is too familiar with our citizens to require any biographical sketch from us. He has always been recognized as one of the most active and reliable members of the Union party. He served with honor for a number of years in both branches of the City Councils, as the representative of the Second Ward. In 1860 he was elected Chief Magistrate of the city. In that position he numbered for himself as friends all classes of the community. He possesses rare executive abilities, and performed the duties of that office in a manner calculated to win the approbation and esteem of the public. He will make a model Representative.

SAMUEL CHADWICK is also well and favorably known to the public. In the fall of 1859 he was nominated and elected by the Republican party to the Legislature, and served one term with much honor to himself and credit to his constituents. He has long been identified with the principles of the party, and by no means will he prove the weakest man upon the ticket.

R. A. COLVILLE represented this county in the Legislature in 1864. He proved a trustworthy and reliable member, and as he has labored hard and earnestly for the party, it is but mete and just that a liberal support be given him.

WILLIAM PETER is a fair representative of the German element. He is a butcher by occupation, and an honest, fair-dealing, trustworthy gentleman, possessing sound thinking abilities, and will make one of our shrewdest Legislators. He has always been a strong advocate of Republican principles, and if elected it will be his advent into office. He is a German with good English education, and will make a very efficient legislator.

GEORGE Y. MCKEE, of North Fayette township, was a member of the last Assembly. He served his constituents faithfully, and in return has again been placed in nomination. He is an upright gentleman, and if honesty of purpose, devotion to principle, or attention to duties, go to make up a perfect Legislator, Mr. MCKEE can justly claim the title.

Thus, as will be perceived, the ticket has been made up of the best representatives of the party, and the wise men who made the choice for the people are entitled to their gratitude. The nominees are combined elements of strength, which would even secure victory were our county less loyal in its politics.

Be On the Alert! Danger is at Hand.
This has been a sickly season. The medical faculty prophesy evil in the future. They think pestilence is on the wing for America. Suppose this to be true, what is the best defense against it? REDOUBLED NERVOUS VIGOR. This is the only protection against PANIC, as well as against the PRINCIPLE OF INFECTION. Why do not those who predict the epidemic propose an adequate preventive? There is one; a tonic, nervine and alterative, competent to shield the system against the subtle elements of disease, whether they float in bitter on the winds from distant lands or rise like vapor from our own soil, or are incorporated with the universal fluid. This ONE PREVENTIVE, of which there is no duplicate among the compounds either of the Old World or the New, is
HOSTETTER'S STOMACH BITTERS.
Remember that it is a specific for all the complaints which lay the system open to visitations of deadly epidemics. If you are dyspeptic, it renews the vigor of your digestive powers, gives you appetite, and restores your cheerfulness. If you are nervous, it invigorates every fibre of your nervous system; from the base of the brain, where it begins, to the extremities, where it terminates. If you are bilhous, it disciplines your unruly liver and brings the action of that organ into harmony with the laws of health. It is, in short, an invigorant and alterative so powerful that Nature, with Hostetter's Bitters for her ally, may bid defiance alike to native malaria and foreign infection. If this enemy we hear of, this disease which is desolating Europe, is really bound hitherward, it behooves the *prudent to put on their armor*, to clothe themselves with invulnerability as far as human means will permit, by preparing the system for resistance with this pure vegetable antidote.
Hostetter's Bitters
Are sold wholesale and retail at very low rates at Fleming's Drug and Patent Medicine Depot, No. 84 Market street, corner of the Diamond and Market, near Fourth street.

DEATH OF GENERAL SCOTT.

Orders from Adjutant General's Office.

OFFICERS DETAILED TO ATTEND THE FUNERAL.

WASHINGTON, May 30.—The following orders were issued to-day:

HEADQUARTERS OF THE ARMY,
ADJUTANT GENERAL'S OFFICE,
Washington, May 30, 1866.

General Orders No. 33.—With profound sorrow the General-in-Chief announces to the army the death, at West Point, New York, on the twenty-ninth inst., of its late illustrious Commander, Brevet Lieutenant General Winfield Scott. His history is part of the history of the country. It is almost needless to recall it to those who have venerated him so long. Entering the army as a Captain in 1808, at the close of the war of 1812 and 1814 he had already, by the force of merit, won his way to the rank of Brevet Major General. In 1841 Major General Scott was assigned to the command of the army. In the spring of 1847, the Mexican war having already begun, he commenced, as Commander-in-Chief of the army in Mexico, the execution of a plan of the campaign, the success of which was as complete as its conception was bold, and which established his reputation as one of the first soldiers of the age. A grateful country conferred on him, in 1855, the rank of Brevet Lieutenant General as a token of its estimate of his brilliant services. As the vigor of his life, whether in peace or war, had been devoted to the service of the country he loved so well, so in his age the country gave to him in return, that veneration, reverence and esteem which, won by few, is the highest reward a nation can give of the most commanding presence, with a mind of great breadth and vigor, pure in life, his memory will never fade from the hands of those who have reverenced him so long.

As a testimony of respect the officers of the army will wear the usual badge of mourning for six months, on the left arm and the hilt of the sword. Guns will be fired at such military posts at intervals of thirty minutes, from sunrise to sunset, on the day succeeding the receipt of this order. Troops will be paraded at ten o'clock, A. M., and this order read to them, after which, all labor for the day will cease, and the flags will be kept at half mast during the day.

By command of LIEUT.-GEN. GRANT.

NEW YORK, May 30.—Two deaths from cholera occurred in the city to-day. The deceased were John Fitzgerald, No. 11 Cherry street, and a woman named Corrigan, No. 86 Sixth avenue.

A meeting in favor of sustaining the Excise law was held at Cooper Institute to-night. It was largely attended. Addresses were made by Horace Greeley, Hon. John Slosson, Rev. J. B. Dunn and others. A private circular was read, addressed to liquor dealers in New York, declaring that they numbered ten thousand voters, and asking them to pledge themselves that they would vote for no candidate not opposed to the oppressive law.

At a meeting of the Metropolitan Fire Commissioners to-day, a reward of one thousand dollars was offered for the discovery of the incendiaries who fired the Academy of Music, and the same reward for any other incendiaries discovered in the next six months.

There was a trot over the Union Course this afternoon, the best three in five, for two thousand dollars, between Lady Emma and Shark. Time 2:28½; 2:30; 2:28½; 2:25½; 2:26.

The Commissioners of Emigration, at the semi-monthly meeting, complained of irregularity of the railway agents in conveying emigrants and taxing luggage passing through Castle Garden. The number of emigrants arrived to the present date this year was 42,003.

Successful experiments by the new submarine exploding apparatus, were made this afternoon at Williamsburg. The apparatus was submerged for an hour and a half, and travelled the bed of the river in that time. A public exhibition will be given on Saturday next.

At the meeting of the shipwrights to-day in this city they resolved to adhere to the original purpose in their strike.

NEW YORK, May 30.—The following additional advices are furnished by the latest arrival:

In the House of Lords, May 18, Earl Clarendon, Secretary of State for Foreign Affairs, in response to certain inquiries relative to foreign affairs, stated: "It is impossible to aggravate the gravity of the crisis. I can reply that both official and confidential communications are in progress at this moment. I can scarcely, as yet, give them the character of negotiations, but they are going on at this moment, and I hope that they may result in a meeting together of all the powers of Europe, both of those who are neutral and of those who are arming, but I cannot hold out a hope that they will terminate in peace, although I think a meeting together of all the powers of Europe may give some hope of an amicable issue. I can only say that no effort on the part of Her Majesty's government will be wanting to bring about such a result. I believe, also, having already begun, he commenced, as Commander-in-Chief of the army in Mexico, the execution of a plan of the campaign, the success of which was as complete as its conception was bold, and which established his reputation as one of the first soldiers of the age. THE MEMPHIS RIOT.

Report of General Stoneman.

WASHINGTON, D. C., May 30.—The Secretary of War, to-day, sent to the House, in compliance with a resolution of that body, the report of General Stoneman relative to the recent Memphis riots. The latter says that upon an investigation by the Commissioners it appears there were killed outright twenty-four negroes, eight of whom were discharged soldiers. The Third Colored Artillery had been stationed at Memphis since its organization, and consequently were not under the best of discipline. Large numbers of the men had what they call families living in South Memphis, contiguous to the fort, in which the soldiers were in the habit of visiting. Some of these soldiers had been used as the instruments to execute the orders of the government agents, such as provost marshals, bureau agents, &c., and consequently had been more or less brought directly in contact with the law breaking portion of the community, and the police, which is far from being composed of the best class of residents here, but principally of Irishmen, who consider the negro his competitor and enemy. Many negro soldiers have from time to time been arrested by the police, and many whites, including some of the police, have been arrested by the negroes, and in both cases those arrested have unfrequently been severely maltreated after giving the particulars of the row. General Stoneman concludes by saying: The great cause of the riots was the hatred of men and the rabble and negro haters in general, with a sprinkling of yankee haters, all led on by demagogues and unprincipled office hunters, and most of them under influence of whiskey.

It appears in evidence before the Commission that Lieutenant Leighton, Recorder of the city, made a speech to the rioters, in which he said: "We are not prepared, but let us prepare to clean every d——d nigger out of town." Very few paroled Confederates were mixed up with the rioters on Tuesday and Wednesday, the large proportion of the rioters being registered Union men. Who commenced the Republicanism on Wednesday night remains to be developed.

MEMPHIS, May 30.—The Congressional Committee have already examined over a hundred witnesses in the Riot Investigation, and are proceeding vigorously. It will be some days before they will complete their work.

Since the burning of the colored schoolhouses at the time of the riot, a building of sufficient capacity for the accommodation of four or five hundred scholars has been erected by the Freedmen's Bureau, with the name of Phœnix Educational Institute, and was opened on Monday with a good deal of ceremony. Speeches were made by General Fiske, General Burkle and others. Arrangements are being made for a grand celebration by the freedmen on the 4th of the federal occupation of the city by the Union troops, on the 6th of June.

THE MEMORIAL TO COM. VANDERBILT.

Interesting Account of the Presentation of the "Vanderbilt."

NEW YORK, May 30.—Commodore Vanderbilt, in his letter to the Secretary of State, acknowledging the receipt of a memorial gold medal, gives the following interesting account of the presentation of the steamer of that name to the Government.

On the 16th of March, 1862, I received at my residence in this city, a letter from the War Department inquiring if I would undertake to prevent the Confederate steamer Merrimac from coming out of the harbor of Norfolk, and urging my immediate attention. As the danger was most imminent, and there was no time to be lost, I answered by telegraph that I would go to Washington the next day.

On the morning of the 17th of March, I called at the War Department, where I saw for the first time Mr. Stanton, the Secretary of War. He requested me to accompany him to the Executive mansion, where I was introduced to Mr. Lincoln, to whom I was then personally a stranger. The President asked me if I thought I could, with the aid of my steamships, do anything to prevent the Merrimac from getting out of Hampton Roads. I replied to him that it was my opinion that if the steamer Vanderbilt was there, properly manned, the Merrimac would not venture to come out, or if she did, that the chances were ten to one that the Vanderbilt would sink and destroy her. Mr. Lincoln asked me to name the sum of money for which I would undertake the service. I replied to him that nothing would induce me to become a speculator upon the necessities of the Government, and that I would not mention a sum as the value of his charter, but that I would make a gift of her to the Government for the service proposed. The President replied, "I accept her." I left him, promising that the Vanderbilt should be at Fortress Monroe, properly equipped and officered, under my direction, within three or four days at the farthest, and she was there within that time. The requisite instrument of transfer was subsequently executed by me and transmitted to the War Department.

Small-pox at Porto Rico.—The Rebellion in St. Domingo.—President Baez Going to Leave the Country.—Newspaper Circulation Suppressed.

NEW YORK, May 30.—The steamer Columbia arrived to-day, bringing Havana dates to the 26th.

The small-pox continued at Puerto Rico and had spread to several places near Ponce, though it was confined to the latter place.

The *Bulletin* says President Baez is unable to put down the revolution in St. Domingo. He has determined to leave the country. This statement, however, is doubted, as the revolution is said to be on a small scale.

Great preparations are making for the reception of the new Captain General.

The circulation of the *Cronica* of New York, in Havana, has been suppressed on account of an article against the Censor at Havana. The Cuban authorities have ordered dollars to the *Cronica* has been suspended also.

Fire in St. Louis.

ST. LOUIS, May 30.—The storage warehouse of Fenwick, Wise & Co., on Elm street, between Second and Third, containing three hundred bales of cotton, four hundred barrels of flour, sixteen hundred barrels of salt, and two hundred bales of hay, was burned to-night. All the contents were destroyed. The loss is estimated at $10,000; insured mainly in Eastern companies. The United States Bonded Warehouse, on Third street, connecting in the rear with the burned warehouse, belonging to the same firm, containing five thousand barrels of whiskey, was also considerably damaged, but the whiskey was saved.

CONGRESSIONAL PROCEEDINGS.

WASHINGTON, May 30, 1866.

SENATE.

Mr. Grimes reported adversely on the petitions for an increase of pay of naval officers.

Mr. Sprague called up the joint resolution for the payment of certain Kentucky home guards, called into the United States service to repel a rebel invasion under John Morgan in 1862, which was passed.

At one o'clock Mr. Howard called up the reconstruction resolution.

Mr. Anthony asked that the Senate insist on its amendments to the West Point Academy Bill, and call for a Committee of Conference. The amendment, disagreed to by the House, is a provision that in making nominations for admission to West Point, members of Congress shall name five persons from whom selection shall be made upon the result of competative examination. The Committee of Conference was ordered.

Discussion followed on Mr. Howard's amendment to the Reconstruction Report.

Mr. Doolittle moved to amend by inserting the words "excluding Indians not taxed."

Mr. Cowan would like the word "citizen" defined, and thought it belonged to the States to say who were citizens.

Mr. Johnson said the Senate was not to be informed that very serious questions had arisen, and because of them, had given rise to much embarrassment as to who are citizens of the United States and what are the rights which belong to them as such. The object of Mr. Howard's amendment was to settle that question. He thought, therefore, that the committee to whom the subject was referred and by whom the report had been made, had acted very wisely in defining what citizenship was. He knew of no better way of accomplishing that than the one adopted by the committee. There was no definition in the Constitution, as it now stands, as to what constitutes a citizen of the United States. That was an open question in that instrument. The courts had decided that any man who is a citizen of a State becomes *ipso facto* a citizen of the United States. But there was no provision at all as to how citizenship can exist, except through the mediumship of the citizenship of a State. All that the Constitutional Amendment provided was that all persons born in the United States, and not subject to some foreign power, shall be considered citizens of the United states, and that would seem to be not only a clear but a necessary provision. There should be some definition of what citizenship is.

Mr. Johnson next passed to the amendment of Mr. Doolittle, and expressed himself in favor of it. He hoped the friends of the joint resolution would adopt it.

Mr. Howard said that the great objection to Mr. Doolittle's amendment, was that its effect would be to naturalize all Indians who paid taxes. He believed, with Mr. Trumbull, that the Indian tribes were foreign powers. They were treated as such, and so regarded by the Constitution, which conferred power to treat not only with foreign nations, but with Indian tribes.

Mr. Doolittle said that the words proposed in his amendment were in the civil rights bill, in a provision similar to that which was now proposed as a constitutional amendment. The civil rights bill undertook to do this same thing which is now proposed here, in declaring which shall be citizens.

The Committee of Fifteen, fearing that this declaration by Congress was without validity, unless a constitutional amendment should be brought forward to enforce it, brought proper to report this amendment.

Mr. Fessenden said he desire to say that in all the senator says on this subject in connection with the Committee of Fifteen, he is drawing upon his imagination. There is not one word of correctness in all he says.

Mr. Doolittle said he would take issue with Mr. Fessenden on that point as a question of fact.

Mr. Grimes said that Mr. Doolittle's charge was not only an imputation upon the Committee of Fifteen, but an imputation upon every senator who voted for the Civil Rights bill. It was an imputation that they had voted for a bill which they believed unconstitutional.

Mr. Doolittle said he meant no such imputation. He meant to say he doubts as to the constitutionality of the Civil Rights bill.

Mr. Fessenden said that no such doubt in regard to the Civil Rights bill were ever expressed in the Committee of Fifteen. During all the discussion in the Committee the subject was not mentioned.

After some remarks by Mr. Saulsbury, the yeas and nays were demanded on the adoption of Mr. Doolittle's amendment, to insert the words "excepting Indians not taxed," which was disagreed to: yeas 10, nays 35, as follows: Messrs. Buckalew, Cowan, Davis, Doolittle, Guthrie, Hendricks, Johnson, McDougall, Morton and Riddle.

Mr. Wilson offered a concurrent resolution that the Military Committee of the House be instructed to inquire into the expediency of constituting a joint committee to take into consideration the message of the President announcing General Scott's death, and report what steps should be taken by Congress to express its appreciation of the character and public services of the late Lieutenant General.

The question then was upon the adoption of the following as a substitute for the third section of the House resolution, reported yesterday.

Mr. Hendricks moved to amend the above by inserting after the word "shall" and before the words "be arranged," the words "during his term of office."

Mr. Hendricks, in advocacy of this amendment, said that an unofficial oath was binding only during the term of office.

Mr. Guthrie said he was opposed to the section above quoted, because of its proscriptive character. He was in favor of the amendment of Mr. Hendricks, because it made it less proscriptive.

Mr. Johnson spoke in favor of the amendment of Mr. Hendricks.

Mr. Sherman believed that under Mr. Hendricks' amendment all who resigned their offices would be relieved from the operations of the third section.

Mr. Hendricks called for the yeas and nays on the adoption of his amendment.

The amendment was disagreed to by yeas, 8; nays, 34. Those who voted in the affirmative were Messrs. Buckalew, Davis, Guthrie, Hendricks, Johnson, Riddle, Saulsbury, and Van Winkle.

Mr. Johnson moved to amend the section by striking out the words "or as a member of any State Legislature, or as an Executive or Judicial officer of any State." The yeas and nays were demanded on this amendment and it was disagreed to by yeas 10, nays 32.

Mr. Johnson moved to strike out the words "having previously taken," and insert the words "at any time within ten years preceding the first of January, 1861, had taken." The yeas and nays were demanded on this and it was disagreed to by yeas 10, nays 32.

Mr. Van Winkle inquired if the last clause of the section referred to a general removal of disability in individual cases.

Mr. Howard said it might be applied either in general or individual cases. It was intended to have a discretionary power in Congress.

Mr. Saulsbury moved to amend by inserting the words "in each House," in the last line the words "And the President may, by the exercise of the pardoning power." The yeas and nays were demanded upon this, and it was disagreed to, by yeas 10, nays 32.

Mr. Doolittle addressed the Senate in opposition to the pending section.

The Senate then, at five o'clock, adjourned.

HOUSE.

Mr. Blaine, from the Select Committee on the War Debt of the loyal States, reported a bill to reimburse the States which furnished troops to the Union army, for all moneys made and expenses incurred in raising the same.

Mr. Blaine said that after conference with the members of the Committee, and friends of the bill, he had concluded to consider and act on the bill at this time. He therefore yielded his own judgment, and moved the bill be recommitted to the Select Committee, and that the Committee be continued as now organized, with leave to report during the next session.

The motion was agreed to.

On motion of Mr. Blaine, the Select Committee on the War Debt was discharged from the further consideration of the bill to reimburse the State of Kansas for moneys expended in furnishing troops, and it was referred to the Committee on Appropriations.

Mr. Stevens, from the Select Committee on a Military and Postal Railroad from Washington to New York, reported back the bill to authorize the building of a Military and Postal Railroad from Washington to New York, which was recommitted with notice by Mr. Stevens that he would call it up in a week.

The bill to promote the construction of a line of railway between the city of Washington and the Northwest, for national purposes, and the bill to authorize the Cleveland and Mahoning Railroad Company to continue and construct their railway from Youngstown, Ohio, to Pittsburgh, Pa., and make it a military and post road, were reported, but the morning hour having expired before action could be had upon them.

The Speaker presented a communication from the Secretary of War, transmitting the report from the Surgeon General, in relation to the recent riot at Memphis, which was laid on the table.

The House resumed the consideration of the bill to provide for restoring the States lately in insurrection to their full political rights.

Mr. Broomwell, of Illinois, addressed the House in support of a thorough and completely the report of the Reconstruction Committee.

On motion of Mr. Schenck, further consideration of the subject was postponed until next Monday.

The House then proceeded to consider the action of the next Special Order, it being the bill reported by Mr. Schenck from the Committee of Military Affairs, to reduce and establish the pay of officers and to regulate the pay of soldiers of the army of the United States.

Mr. Schenck detailed at length the object of the bill, and the operations of the present cumbrous and roundabout mode of calculating the pay and allowances of officers. He indicated several amendments which he desired to offer to the bill, one of these being to make the pay of a General $15,000, and all of the Lieutenant Generals $10,000; to allow to officers, in lieu of fuel, rent and longevity ration, ten per cent. additional for every five years' continuous and faithful service. The amendments were incorporated in the bill.

Mr. Blaine referred to the inequality of abolishing commutation of rations, showing the cost of living at Fort Bridger, where the Government had contracted for wood at fifty dollars per cord, for corn at twelve dollars a bushel, and for flour at seventy-five dollars a barrel, and where, he said, a Brigadier General could not support two horses and two children on his pay of $5,500. Officers on the Utah expedition could not have lived on double their pay, if they had not been allowed commutation of rations.

Mr. Farquhar inquired whether the difficulty could not be obviated by allowing rations in kind at distant posts.

Mr. Garfield admitted that that would make a great difference. But there was no such provision in the bill.

Mr. Thayer observed the bill. He held it to be manifest in this country, covering such a vast

MEXICO—THE MONROE DOCTRINE.

General SANTA ANNA is in this country, and in negotiation, more or less formal, with the Secretary of State. Some accounts represent that he came here by invitation of our government, while other reports accredit him as an agent of MAXIMILIAN and the French. Battered in the intrigues of politics, he is capable of acting in the double capacity of negotiator for two parties, at the same time keeping his eye mainly in his own interests.

Evidences abound that the attempt to graft an Austrian dynasty on the Mexican stock is a failure, and that MAXIMILIAN will soon have to put off the purple and hunt up the chances of resuming the ducal coronet he relinquished. The inducement which chiefly led NAPOLEON to invade and conquer Mexico were frustrated by the suppression of the rebellion in the Southern States. The enterprise was always unpopular with the French people. Latterly, the Emperor would have rejoiced at finding a valid excuse for beating an honorable retreat. Now he has matters of the first importance to attend to near his own dominions.

Meantime Congress is entertaining a proposition for the increase of the national debt, by endorsing the bonds of the vagrant Mexican republic, or of advancing thereto, in cash, a handsome number of millions. Much foolish talk is indulged in Congress, and out, concerning the enforcement of the Monroe doctrine. The truth is, all citizens of this country who understand what that doctrine really is, see it has been deprived of all practical consequence by the progress of events.

Mexico started in its republican career somewhat auspiciously; sufficiently at least to cause hope for its future to predominate over prognostications of evil. Monroe had doubts. He saw indications he did not like, and spoke of them. What he hoped has not been realized. What he feared, has proved true beyond his most sombre forebodings. The Mexican republic has not been a success. It has dishonored popular government. There is small ground for hoping it will do better in time to come.

In MONROE'S day the United States was weak. A small thing was a menace. Now we are thirty four millions of people, and do not stand in awe of any foe that may rise up against us.

The right of a nation to organize its government to suit itself is a position few men have hardihood enough to dispute. NAPOLEON III. claims to be Emperor of the French by their will, accurately and formally declared. He did not seat MAXIMILIAN on the Mexican throne until an election had been held, which he could appeal to as validating that transaction. In form, at least, the Mexicans consented. Whether there was actual substance, as well as form, certainly admits a debate.

A good many of the people of this country, who do not like monarchical institutions, were content MAXIMILIAN should try his hand at governing Mexico. It was worth while to see if imperialism was sufficiently potent to make the people of that unhappy country desist from the pastime of cutting each others throats. It has been tried and failed. All forms of government have proved ineffectual to that end. Of what use, then, is it to spend much sympathy or cash upon such a population?

It would certainly gratify American feeling to have the French and Austrians driven out of Mexico. Gen. GRANT has been aching for months past to take hold of that job. Doubtless he would do it with a dash and finish that would be exhilarating. It will cost less to let them drive themselves out. But, after they shall be gone—what then? Can SANTA ANNA lift Mexico out of its condition of chronic insurrection? Can anybody? We have no faith in the possibility of accomplishing that result. Hence, under the light we now have, we do not look favorably on any scheme for investing the credit or cash of the United States in Mexican politics. We do not believe it will pay. Indeed, we incline strongly that nothing will pay in Mexico but to sweep out the present population and start anew. It may be the great men at Washington are acting upon information they withhold from ordinary mortals, who have got to pay the National fiddler. If such is the fact, for their own vindication, they had better show up the grounds on which they are proceeding.

WHEN PRESIDENT JOHNSON commenced turning republicans out of office because they would not abandon their principles and betray their party, he was not careful to select soldiers for preferment. He rather delighted in broken-down politicians, and he nominated a good many of them. The Senate called a halt on his game, and then he resorted to the soldier dodge. He seems to have said to himself, "I like political hacks, but the Senate won't stand them. The Senate will not dare to reject soldiers, and so I will stick soldiers at them. Not that I care for soldiers, but I am bound to have my own way in spite of the Senate." How far this game will prove successful, and how far a failure, already begins to appear.

PRESIDENT JOHNSON once said "traitors ought to be made to take *back seats*," or something to that effect. When it was proposed by act of Congress to disfranchise certain classes of traitors, that is, to compel them to take seats in the rear, the President interposed with the objection that the regulation of suffrage was one of the reserved rights of the States. Last week the people of West Virginia, by a direct vote, resolved to disfranchise rebels by an amendment of the State Constitution. The President, and the supporters of his Policy, meet that action with averted faces. Why? They no longer hold that "treason ought to be made odious."

IT is stated that the President has indicated an intention to change the entire list of foreign appointments.

—The burial ground of the Union soldiers near Washington, at Arlington Heights on the south, and the Soldiers' Home on the north of the Capitol, are visited by crowds during this lovely weather. It is a good place to get cured of 'my policy.'"

—Those who clamor for an early adjournment of Congress should remember that five of the most important measures of the session yet remain to be finished: The Tax bill, the Reconstruction bill, the Appropriation bill, the Freedmen's Bureau bill and the Equalization Bounties bill. Four of these five arise from the late war, and are, therefore, in addition to the ordinary legislation; besides these there is a large amount of unfinished business of various kinds in committee or partly passed.

Confederate Officers in Mexico.

The Emperor Maximilian seems to have got tired of the Confederates in his service. Henry W. Allen, Brigadier-General in the Confederate Army—a year Governor of Louisiana, and since the abandonment of the cause of rebellion in the Trans-Mississippi Department, editor of the *Mexican Times* died in the city of Mexico on the 22d of last month, and was buried in the American Cemetery, in full Confederate uniform, on the following day. Some objections were made to this defiance in death to the Government he cursed in his life, by our Consul, Mr. Otterbaugh. He at first objected to their burying him in uniform in this burying-ground by the side of all the Americans who have died for the last eight years. The cemetery is the property of the United States Government. Mr. Otterbaugh withdrew his objections and signed the license when he saw that a general row would be the result if he did not.

Three days before the death of Mr. Allen, Maximilian notified Gen. Magruder, Surveyor-General of the Empire of Mexico, and Col. Maury, who was then at the head of the Foreign Emigration Bureau, on account of his father's absence in Europe, that they should return their portfolios on the 1st of May, and that on account of the lack of sufficient revenue, those offices should be discontinued. The son of the defunct Confederacy has gone down at last. Jubal Early left for Havana as soon as he learned of the discharge of the Confederates from office. Gen. Wheeler is the first to linger, and he goes to the United States Time enough Manhattan. The Mexican *Times*, by will of the late owner, has passed into the hands of John N. Edwards, one of Joe Shelby's soldiers. He is also the receipient of 12,000 money in bank and a third interest in the Conklin Brothers' great American Circus,—now showing at Mexico. Mr. Edwards is a good writer, and has had considerable newspaper experience. He will support the Empire, but discard political questions.

ON Monday, May 14th, the first division of the Warren and Franklin Railroad was opened to the public. This section is fifteen miles in length, and extends from Irvineton, at the mouth of the Brokenstraw, on the line of the Philadelphia and Erie Railroad, to Tidioute, one of the most important points in oildom. The immediate vicinity of Tidioute now produces about 1500 barrels per diem, with many wells in progress, and the amount stored in tanks waiting for the railroad was about 25,000 barrels when it opened. The graduation of the remainder of the road is nearly completed, so that nothing will delay the completion of the roadbed fast as the track can be laid down, all the materials being provided. A large force is at work, and the second division to West Hickory will be finished in about two weeks. This is also a very important oil producing point. The whole road to Oil city will be finished in July, and there is every reason to believe that there will be the most profitable in the State of Pennsylvania, both in freights and passengers It passes along the valley of the Allegheny river, and has very favorable grades and curvatures. The chief engineer and superintendent of the road is N. P. Hobart, Esq., formerly of the Reading Railroad.—*North American*.

—General Van Cleve has just returned to St. Paul, Minn., from a tour of inspection through the Upper Minnesota Valley. He reports that the sufferings of the Indians during the last winter, from cold and hunger, have taught them the extent of their dependence on the Government, and will tend to keep them on friendly terms with us. The proposed treaty with the Sioux will engage their attention for some time, and there is, consequently, every reason to hope for a quiet summer. In view, however, of the extending of our settlements northward, and a possible repetition of the horrors of 1862, he thinks that two companies of cavalry should be sent to the State to insure the security of its inhabitants.

—A few days since two maiden ladies named Holloway, residing in Lowville, Erie county, Pa., received the sum of $8,000 which they concealed about their premises. Two ruffians, knowing this, broke into the house a night or two after, with the intention of robbing them of their money. The ladies refused to tell anything about it, when the burglars choked them to make them confess, but they would only acknowledge the possession of $40, which they had upon their persons. The burglars took this and left. They have since been arrested, and, being identified, are now confined in the Erie jail to await trial.

—A strange case has just transpired in one of the courts at Chicago. A gentleman has been compelled to sue out a writ of habeas corpus to get possession of his wife. The writ is directed to the wife's mother, who is charged with unlawfully detaining the lady from the arms of her loving husband. Of course, the wife was given up, whereupon an ill-natured Cincinnati editor says that very few citizens of Chicago would be at the expense of a law suit to recover possession of their wives—for, if they have any particular weakness, it is for the wives of other people.

THE *Gazette* persists in stating that Mr. Clymer did not resign his seat in the Senate to escape a vote on the eight-hour bill; and yet, by the *Gazette's* own showing, Mr. C.'s letter of resignation was sent to the Senate the *very next day after* the eight-hour bill had passed the House. It looks very *suspicious*, to say the least.—*Reading Journal*.

OFFICES UNITED STATES PRIZE CONCERT, }
WIGGINS, BRADFORD & CO., Proprietors. }

WE WOULD MOST RESPECTFULLY announce that in consideration of the following cogent (and we trust satisfactory) reasons, we have finally concluded that a postponement would be equally advantageous to the public and ourselves, namely, that we prefer to

Dispose of all the Tickets and give the Public all the Prizes,

than to hold a quantity of tickets (as proprietors usually do) and thereby enhance our chances of drawing the large prizes.

The drawn numbers will be published in the Chicago daily papers as soon as drawn, and when the drawing is over each agent will be furnished with a complete list of the drawn numbers.

In view of the above reasons, which we hope will prove eminently satisfactory,

WE HAVE POSTPONED THE DRAWING

CITY AND NEIGHBORHOOD.

(ADDITIONAL ON FIRST PAGE.)

A Police Officer in Limbo.

Officer Sarber, one of the police employed to preserve order on Fifth street during business hours, was yesterday brought before Mayor McCarthy, charged with drunkenness and disorderly conduct, on oath of J. C. R. Gardner. Several witnesses were examined, who testified that about four o'clock yesterday afternoon Sarber stopped in front of Mr. Gardner's, in the Opera House building, and began talking in a very boisterous and disorderly manner, which had the effect of attracting a crowd of spectators to the spot. On Mr. Gardner remonstrating with him he ordered that gentleman to leave, and also gave him an interesting piece of information to the effect that he (Gardner) had not business on that portion of the pavement whatever, as it belonged to some one else. After this Sarber left, but in the course of half an hour returned and again repeated the disorderly display, whereupon Mr. Gardner had him arrested as stated.

After hearing the evidence, both *pro* and *con*, His Honor gave the accused a severe rebuke for the manner in which he had been acting, stating that in consideration of his being a police officer—whose duty it was to suppress disorder, and not create it—he would become liable to impose a heavier penalty than he would otherwise do, and he therefore ordered Sarber to pay a fine of twenty-five dollars and costs, which he did and was discharged.

In justice to officer Thornburg, who is employed to act with Sarber in Fifth street, we think it proper to state that Mr. Gardner exculpates him from any participation in the disorderly conduct. From the view we take of the matter we cannot see what need there is for either of the officers mentioned. Beside our regular police force, we have some thirty "specials," whose duty it is to keep our thoroughfares freed from obstructions and disorders, and we think they are fully competent to discharge those duties.

An Actor in Trouble.

Benjamin Trimble, the proprietor of Trimble's Varieties on Penn street, appeared before Alderman Humbert a few days since and made oath against Charles O'Donnell for false pretense. The deponent alleges that O'Donnell rented the Varieties for last Friday night, for the purpose of giving a performance there, for which he was to give Trimble $40.

Before the curtain was raised on the night in question, Trimble demanded the money, and refused to allow the curtain to be rolled up until he would be paid.

The presence of several "roughs" behind the scenes, however, altered Benjamin's determination, and the entertainment was proceeded with. Although, as Trimble alleges, there was $140 in the house, the defendant refused to give him a cent for the use of the hall. A warrant was issued for O'Donnell's arrest, but up to this time he is still at large.

"Knock Down" on the Wharf

Tuesday evening, on the Monongahela wharf, John Stone and Patrick McCallister, having had a dispute, concluded to settle the same by the use of arms. The following was the result: Patrick was knocked down, had his nose mashed, and was otherwise damaged. Failing to obtain "satisfaction" with his muscle, he sought redress under the law, and repaired to Alderman Strain to have entered an information against his superior in the art pugilistic for assault and battery. Stone was arrested yesterday and held in $500 for a hearing. The prosecutor, according to the statement of Wm. Garvey, a looker on, was the aggressor, in striking the first blow, and an information being made against him, (for assault and battery,) he was also held for a hearing.

Church Festival.

The Girard House has received quite a pleasing and enthusiastic "dedication" at the hands of the ladies of the First Baptist Church, who have been holding a festival for several days, in the newly fitted rooms. The festival is still in successful operation, but close to-night. A fine dinner will be served to-day from twelve to three o'clock, and from the satisfaction with which visitors have hitherto been served, we shall expect another large delegation to-day. The evening will be given to the disposal of a large assortment of fancy goods, &c., while ice-cream, confectionery and other delicacies can hardly fail to appeal to the taste of the visitors. The object is a noble one and the ladies deserve every encouragement.

Tobacco, Snuff and Cigars.

The attention of our readers is directed to the advertisement in another column of R. B. Jeffries, No. 6 St. Clair street. He manufactures tobacco into all of its numerous forms for use, and his brands of cigars, snuffs, chewing and smoking tobacco, are universal favorites. He sells either wholesale or retail. He has on hand a very superior stock, which he offers at rates which defy competition. A fine assortment of plain and fancy meerschaum pipes and cigar tubes is kept constantly on hand. Mr. Jeffries is a fair dealing business man, and, as such, is worthy and deserving of a large share of the public patronage.

New Base Ball Club.—At a meeting held in this city on May 30th, a new Base Ball club was organized, composed of young men belonging to the legal and medical professions. An election for officers resulted as follows:—President, Henry J. Gourley, Esq.; Vice President, George H. Christy, Esq.; Secretary, Dr. E. S. Unbustetter; Treasurer, Joseph M. Gazzam, Esq. Executive Committee—Maj. Gen. A. L. Pearson, N. W. Shaffer, Dr. Daniel McMeal, Jr., Capt. Samuel Fullwood, Thomas A. Cain, C. S. Ammond, Esq., Dr. W. Snively, J. M. Gazzam, Dr. W. H. Daly, Col. Thos. Bayne, and S. A. Johnston, Esq. The association intend inaugurating the season by a friendly match game between the legal and medical members.

Ordered to Remove a House.—John McClarran made information before Alderman Morrow, yesterday, charging Street Commissioner Flinn with direliction of his official duties. McClarran alleges that there is a certain brick house on second street, in the Eighth ward, built on the street in violation of the city ordinance, and that although he has informed Flinn of the fact some days since the latter had failed to act in the matter. There will be a hearing in the case to-morrow when the problem whether the officer accused has the power to remove a house or not will be legally solved.

Homeopathic Hospital.—To-day the Dispensary Department of the Homeopathic Hospital, No. 146 Second street, will be thrown open for the medical and surgical treatment of the poor, free of charge. The Hospital will soon be formally opened. As it is the first institution of the character organized here, the public should do all in their power to support and sustain it. We shall again refer to the character and object of this praiseworthy and charitable institution. The Dispensary Department will remain open for the treatment of the poor every day from eleven o'clock till noon.

Trinity M. E. Church.—A series of entertainments are announced to be given in Trinity Methodist Episcopal Church for the benefit of the Sabbath School. On to-morrow evening Prof. A. Hunter will lecture and give illustrations on the subject of education. On Thursday evening of next week a concert by the Sunday School will be given, and on the following Thursday evening, 14th proximo, a lecture will be delivered by Rev. W. B. Watkins on the "Use, Abuse and Beauty of English Words." Tickets for the course, or three entertainments, can be obtained for one dollar. Single tickets, fifty cents.

The "Whisky Court."—Yesterday, the 30th, being the day fixed for the hearing of applications for license to keep taverns, eating houses, and to sell liquor with other goods, Judges Sterrett and Brown were called upon to exercise the duties prescribed under the law. The applications numbered nearly two hundred, in the disposition of which the entire day was occupied. The examination of witnesses was more than usually rigid, and remonstrances were presented in many cases. The Judges will be obliged to sit to-day, in order to finish the list.

Coming.—We are glad to announce the fact to our readers that Miss Charlotte Thompson, the great Pittsburgh favorite, will begin a brief engagement at the Opera House, in a few days. Miss Thompson is an actress of ability and purity in the fullest sense of the word, and during her stay among us, we hope she will receive the reward due to merit.

Alleged Incendiary.—John Osterhulze has been lodged in the county jail, having been committed for trial on a charge of willfully and maliciously firing a hay-stack, the property of R. G. McCorkle, causing the destruction of the same. Justice Joseph Miller, of Snowden township, was the committing magistrate.

Nuisance.—Andrew Fleming and the heirs of Stacey Lloyd were before Alderman Morrow yesterday, charged on oath of Street Commissioner Flinn with maintaining nuisances on their premises. Both were discharged on payment of costs and promising to abate the nuisance.

Surety of the Peace.—Richard Newman yesterday appeared before Alderman Humbert and made oath against Andrew Cline for surety of the peace. A warrant was issued for Cline's arrest.

Large Strike.—By a dispatch received yesterday in this city, it is announced that a thirty hundred barrel well has been struck at Burning Springs, West Va.

OUR EARLY TELEGRAMS.

FROM WASHINGTON.

Santa Anna's Commission—Interview with the Mexican Minister—Circular to National Bank Depositories—Assistant Secretary of the Navy—Action of Steadman and Fullerton—Connecting Telegraph with the Postoffice Department—Colorado Admission Bill—Jefferson Davis Ill—Charges Against Bureau Officers.

NEW YORK, May 30.—The morning papers have the following special dispatches from Washington: The results of the Commission that is here in behalf of General Santa Anna, may be summed up in a few words. Col. Vidal Y. Rivas, Col Mazura, and Balz, arrived in the city on Wednesday evening. On Thursday they called in a body upon the Mexican Minister, Senor Romero, and had a somewhat protracted though unofficial interview. On the following day they presented their compliments to Secretary Seward. In the forenoon of Saturday they had another interview with Senor Romero. On the afternoon of the same day Colonel Rivas called on the Mexican Minister alone. He visited him again yesterday and to-day, remaining an hour or more upon each occasion. What transpired at these interviews had not been allowed to be made public. It is known, however, that they called on Romero as Mexican citizens, and that they were received by him in his individual capacity. It is generally believed that they desired his permission to proceed to Mexico in the interest of the Liberal government, and it is also believed that General Romero declined to commit himself or the government he represents in any official manner until he has had an opportunity of communicating with its head and learning his wishes. All the statements are mere speculations. Mr. Balz returned to New York yesterday, and Col. Rivas and Mazura will probably leave to-morrow.

Mr. Hooper, the acting chairman of the Committee on Banking and Currency, now engaged in investigating the condition of the National Banks, has caused the following circular to be addressed to each of the National Banks designated as Government Depositories:—By authority of a resolution of the House of Representatives, you are hereby required to prepare and forward to the Committee on Banking and Currency a statement showing the amount of money standing to the credit of the United States in the Treasury, and the names of all sums standing to the credit of any disbursing officer or of any officer or agent of the United States, stating the name of the officer or agent, and the amounts to the credit of each, as appears by your books on the first day of May, 1866.

Wm. Faxon, Chief Clerk of the Navy Department, has been nominated as Assistant secretary of the Navy, vice G. V. Fox, whose name is sent to the Senate as Assistant Secretary, under the act approved on the 5th inst., which limits the period of his office six months, and will enable him to visit Europe in his official capacity.

The *Times'* special says: There is the best authority for denying the report in some of the papers that the proceeds of the recent sale of gold by the Secretary of the Treasury have been applied to the purchase of Government bonds.

The Congressional Committee appointed to follow up the action of Steadman and Fullerton is being made up and will leave for the South the first of the week.

The Postmaster General will send to the Senate in a day or two a reply to the Senate resolution of inquiry as to the expediency of connecting telegraph with the postal system, under the direction of the Postoffice Department. He will show that in his judgment the telegraph system cannot be connected with the postal service with advantage to the government, and will give at length the reasons why it would not be proper and expedient to connect the two systems together.

It is not believed that the Colorado Admission Bill can command the necessary two-thirds vote.

Mrs. Jeff. Davis left this morning for Fortress Monroe, called thither by a letter from Dr. Cooper, stating that Mr. Davis is ill.

The specification and charges against the Bureau officers in North Carolina have been prepared, but the Commission as yet has not been appointed. They are to meet in Raleigh, June 15th.

Election in Albert County, N. B.

ST. JOHN, N. B., May 29.—The election in Albert county was held to-day, and resulted in the two Confederate candidates being returned by a large majority. So far the elections have resulted in favor of eight Confederates and no antis.

There is intense excitement here over the death of the Confederate Humbert, killed on Friday morning. The murderer has been arrested.

The New York Fire Alarm Telegraph Decided to be Unreliable.

NEW YORK, May 30.—The Telegraph Committee of the Board of Fire Commissioners have decided against the present telegraph system, which is very unreliable. The street box system is considered more preferable.

Arrival of Supposed Fenians at Buffalo

BUFFALO, May 30.—Several hundred men, said to be Fenians, arrived here this morning, and are in secret council with brother Fenians here. There is but little if any apprehension of a raid from this quarter.

All descriptions of Government Bonds bought and sold on liberal terms.

London and Continental Exchange sold at New York rates.

Gold, Silver and Coupons bought at highest rates, and Gold Drafts issued on New York.

FINANCE AND TRADE.

WEDNESDAY, May 30, 1866.

Gold sold up to 138¾ in New York to-day which is an advance as compared with yesterday's quotations. This was owing no doubt to the heavy shipments to cover former drafts on houses in Liverpool and London, that were, by force of circumstances, compelled to suspend. Notwithstanding this rise in gold, there is a tendency toward lower rates, and, war or peace in Europe, no effigure on Wall street will be powerful enough to run up the premium again to 150, as the undertone of the market is decidedly bearish. Mr. P. R. Mertz's New York quotations to-day were as follows: Gold 138 to 138¼; 1881's, 109¾; 5-20's (old) 102; new 1021/2 10-40's, 2d, 7-30's, 1024@102¾.

Unusual large amounts of 7-30 bonds are now being offered here. This may be attributed to the sudden advance in these securities, which induces holders, who look upon them as a temporary investments, to realize the high premium. There is also a continued good demand for money from trades-people, who cannot dispose of their goods as fast as they would like and meet their engagements with their eastern houses.

There is a continued good demand for new Five Twenty bonds at low figures, but as the next steamer will probably bring back a considerable amount of these bonds, which, when thrown on the market, must necessarily depress their value, if only for a short period.

In our local stock market there is but little doing. City and County bonds are in demand, but the extreme views of holders has a tendency to retard operations. Bank shares quiet and firm, while Insurance stocks continue very dull. Oil stocks are also dull and neglected, 1,500 shares "Maribee" was reported to-day at 1,80—par value, 1,00. This Company, it is said, has two producing wells on their property near Pit-hole, and other wells being put down. Columbia's quiet and unchanged.

—The advices from the Venango oil regions are by no means encouraging. The Titusville *Herald*, of Tuesday, says:

The petroleum markets have commenced to give way at the wells, oil being freely offered on the Creek at $7.75. There is absolutely no demand for the article even at these figures. The late advance from 12 cents to anything but encouraging, and the tendency is downwards. There is no necessity for anything like a panic, as when oil fails to the neighborhood of 5 cents it will be a long time before it is going much further, as speculators will be induced to come in at these figures and buy to hold for a rise. The hope of peace in Europe has nearly passed and a large amount of oil stored here for that market, will, as a necessary consequence, be thrown on our hands. The interference may be temporarily embarrassed, but the immense pressure caused by this surplus will open new channels of trade which otherwise might have been neglected.

Investigation was adopted in the House of Representatives on Monday, directing the Secretary of the Treasury to inform the House what amount of gold belonging to the United States has been sold under his authority since the 1st inst., and at what rates; also, the names of the agents through whom such sales were effected, and what rate of commission was authorized by the Department.

The miscellaneous list was higher this afternoon. The Petroleum and Mining shares were generally lower.

The *Post's* money article says the news by the Hibernia has given an improved impulse to the force of gold. The effect is less than was anticipated, on Government, for which investments the demand is very active. The loan market is easy at 6@7 per cent, with an abundant supply. The stock market shows more animation; Governments are strong and Railroad shares active. The principal feature is in Erie, which has advanced from 87¾ last evening to 92. The closing price this morning after the board was: New York Central sold by to 97¾; Erie 92, and Pittsburgh to 88¾.

At the one o'clock call the market was rather lower, Erie selling at 91. Later, Erie sold at 91¾.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, WEDNESDAY, May 30, 1866.

There have been no new characteristics in the produce markets to-day worthy of special notice. The demand for most of the leading commodities continued fair while prices have undergone no essential change.

GRAIN—We can report sales at elevator of 15 cars Northwestern Club Wheat at $2,20 per bushel. Oats quiet but steady, with sales at 55 to 57c on track, and 60 to 62c from store—56c in a retail way. Sale of 1 car load from store at 57. Corn is firm, and shelled is quoted at 80 to 85, as to quality—sale of 1 car prime Ear at 88. Rye is still quoted at $1. No movement in Barley.

FLOUR—Is quiet but steady, with a continued fair local demand, and prices remain unchanged, at $10,50 to $11,25 for fair to choice brands of Spring Wheat; $11,50@11,75 for half Spring and half Winter; and $12,50 to $13 for all Winter Wheat. Rye Flour is selling at $6,50 @6,75 per bbl.

PROVISIONS—Bacon is firm and looking up. We now quote at 14½@14¾ for Shoulders; 17@ 17½ for Ribbed Sides; 21½@22 for Plain Sugar Cured Hams, and 25@25½ for Canvassed do. Lard is selling at 22½@23 for prime city. Mess Pork is held at $32,00@33 per bbl—full weight. HAY—There is a continued fair demand, and with limited arrivals, prices are well sustained. Sales at scales to-day of 15 loads at $ 5 to $30 per ton.

POTATOES—The demand continues rather light, and the market is quiet and a little dull but unchanged. Sales from store at $1,20 to $1,30 per bush, and $3,40 to $3,60 per bbl, as to quality.

BUTTER—The demand is a little more active, principally speculative, but there is, as yet, no improvement in prices—20 to 25, some holders asking 25@30, for prime.

EGGS—Scarce, and in good demand, and fresh packed sell readily at 22@23.

CHEESE—Western Reserve is selling at 16 to 17, and Goshen at 21@22—but little Goshen in market.

DRIED FRUIT—Peaches scarce and firm; sales at 19@20 for quarters, and 24@25 for prime halves. Apples may be quoted at 14@15 for old; and 19@20 for prime bright York State.

BEANS—Demand better; sales at $1,50 to $2 per bush—the latter figure for prime small White.

SORGHUM—Is dull; sales of prime at 55@60.

HOMINY—Small sales at 3¾@4.

ASHES—Sales of Pearls at 14½ cts—an advance.

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, WEDNESDAY, May 30, 1866.

There is no improvement to note in the demand for Crude, either for present or future delivery, and notwithstanding the supply is light and the receipts limited, the market is excessively dull and depressed, though prices remain nominally unchanged, at 14, bbls returned, and 19, bbls included. Sale of 55 bbls (good gravity) at 11½; and 50 bbls Smith's Ferry oil (light gravity) at 13½. The advices by the last foreign steamer are regarded as very discouraging, while the reports from the wells are very conflicting. There is no disguising the fact, however, that the Petroleum business looks decidedly blue at present, and what is worse still, there are no indications of any immediate improvement.

REFINED—The demand for bonded oil continues very limited, parties resting for present as well as future delivery, and as buyers do not seem disposed to take hold very freely, and refiners are not overly anxious to sell, business has come to a complete stand, and we have not a single operation to record. We are cognizant of several lots of 500 barrels each having been offered for September delivery in Philadelphia, buyer's option, at 47, but at last accounts they had not gone through. For Pittsburgh deliveries there seems to be little or no inquiry, and, in the absence of sales, we omit quotations. Free Oil is dull and entirely nominal.

ARRIVALS—The arrivals of oil continue very light. Capt. Hugh Mckelvy received 348 barrels from Oil City, and Capt. J. T. Stockdale 53 bbls, and Brewer, Burke & Co. 202 bbls, from Smith's Ferry—making a total of 603 barrels.

New York Produce Market.

NEW YORK, May 30.—Cotton dull, heavy and 1@2c lower, at 39@40c for middlings. Flour rather more active, at $8,35@8,80 for Extra State, $8,40@8,90 for Extra round hoop Ohio, $9,00 for trade brands, closing steady. Whiskey active and firmer; western, $2,27; 170 obls. do. in bond at $2,27. Wheat firm; prices without decided change at $1,40 for unsound Chicago Spring; $1,75 for unsound Milwaukie Club; $2,07 for choice new No. 2 Milwaukie, and $2,15@2,23 for prime new No. 1 Milwaukie; the latter prices are extreme. Rye quiet; western, 96c. Corn opened a shade firmer, closed dull and 1@2c lower, at 77@81c for damaged new mixed western; 82@84c for sound do., closing at 83@86c afloat, 86@90c for western yellow, 90c for handsome white western, and 86c for old mixed western. Oats a shade firmer and quiet at 50@50½c, old scarce and nominal. Petroleum dull, at 27@27½c for crude, and 43c for refined in bond. Pork heavy, at $35,50@ 36 for new mess, closing at $35,62½ cash, $35,25@35,75 for old, and $34@34,50 for prime; also, 4250 bbls new mess for June, July and August, sellers' and buyers' option, at $35,50@36. Beef steady at about previous prices. Lard firm, at 21¾@22. Bacon quiet. Cut meats steady, at 12¾@13¾c for shoulders, and 17@ 18½c for hams. Lard firm, at 19¼@22½c; small sales at 22½c. Butter heavy, at 30@32c for Ohio, and 36@37c for State. Cheese quiet, at 16@20c.

Potatoes.

DETROIT, May 30.—The market is very dull to-day, with none offering that we have been able to hear. We do not think they would command any where near quotations ruling last week, but as we are unable to state a definite price, we give no rates to-day.

CINCINNATI, May 28.—The market has ruled steady all the week, there being a fair demand from the local dealers and, on orders from other points, and as the receipts are light, full prices were realized, though quotations have varied but little from the figures current at the date of our last weekly report. We quote the best descriptions at $3,50@3,75 per bbl, from store, and $3,50@3,60 on arrival. The stock has been considerably reduced.

Chicago Market.

CHICAGO, May 30.—Flour steady. Wheat firm at $1,54@1,56 for No. 1, and $1,06@1,16 for No. 2. Corn firm at 53@53½c for No. 1, and 50@ 50½c for No. 2. Oats steady at 31@32c for No. 1, and 30@30½c for No. 2. Highwines active and firm at 92c for Bonded, and $2,30 for Free. Provisions dull. Freights quiet at 14c on Corn to Buffalo. Oswego Market.

OSWEGO, May 30.—Flour unchanged, at $10,25 for No. 1 Spring; 2,200 bbls Red Winter received, at $15 for Double Extra. Wheat dull; No. 1 Milwaukee Club, $2,10. Corn quiet. Last night 7,800 bushels of No. 1 Illinois were sold at 75c. Oats quiet; Western held at 35c. Barley, Rye and Peas are scarce and nominal. Canal freights unchanged.

Cincinnati Lumber Market.

CINCINNATI, May 28.—We have nothing new to record of the market. Only a fair amount has been received by river, and the sales being about equal the receipts prices are steady. We quote pine $30 per thousand feet, as the rafts run, though some purchases have been made at $28. The rates from yard remain as reported in our last.

RIVER NEWS.

The river rose a few inches again during Tuesday night and yesterday forenoon, but last evening it was about stationary, with three feet five inches in the channel by the marks. The weather yesterday was cloudy and clear at intervals, but very pleasant and favorable for out door business.

The arrivals from below include the Forest City, from Parkersburg; Yorktown and Emma No. 3, from St. Louis; and the Robt. Moore, from Cincinnati. The Forest City left on time with a moderate trip. The Fayette and Chieftan are due here from Brownsville this morning, and both boats will return again this evening, leaving at 5 o'clock.

The Emma reports having come up over Glass House yesterday, drawing full three feet without rubbing, and we are of the opinion that a boat could have left here last evening and gone through drawing three and a half feet.

The cargo manifests of the Yorktown and Emma No. 3 will be found elsewhere.

Mr. Wm. Blackstock has resigned his position as clerk of the Nora, and arrived here yesterday from Cincinnati. He reports that the Nora was to have left for Pittsburgh on Tuesday evening.

The Kate Robinson and Armenia en route from St. Louis to Pittsburgh, arrived at Cincinnati on Monday, and both boats were advertised to leave there for this port on Tuesday. Among other items of freight, the Armenia is reported as having three hundred tons of iron ore.

Passengers and shippers should bear in mind the Fayette, Capt. Cox, and the Chieftan, Capt Abrams, both neat passenger steamers, leave for Brownsville and Geneva this evening at 5 o'clock.

We extract the following river items from Tuesday's Cincinnati *Commercial*.

The last arrivals only report from five to five and a half feet water on Rising Sun bar and the Grassy Flats, and eight and a half feet on the shoalest bars along the Lower Ohio. The low water is compelling the the larger class of steamers to haul off, giving place to the small class. The C. T. Dumont took the place of the United States yesterday in the Louisville Mail Line. The Naugatuck also leaves for Memphis on Wednesday in the place of the Robt. Burns, in the Memphis and Cincinnati Packet Company's Line.

The Keenia and Robt. Burns have laid up owing to low water.

The Kate Robinson, from St. Louis, discharges 1000 barrels flour here.

The officers of the new Wheeling packet, R. R. Hudson, were agreeably surprised yesterday, by an elegant and costly present for their new steamer, in the shape of a magnificent piano-forte, from R. R. Hudson, of Pomeroy, the gentleman after whom Capts. Russell and List named their packet.

Our enterprising fellow-citizen Mr. Phil. B. Cloon, has located a bulletin board at his bakery, corner of Sycamore street and Public Landing, where will be posted the price of gold seven times, and stocks four times, daily, for the convenience of steamboatmen and business men in the vicinity of the levee.
